

## Desert beach (Tropical flavour)

The activity begins normally in Horta Marina, being possible also to occur at Castelo Branco harbour, depending on sea condition, type of service, customers mobility and desire. If needed easily arrange a taxi service from Horta, to Porto de Castelo Branco harbour.

With the support of a vessel made of fiberglass and equipped with all the safety standards and a qualified crew for this purpose, we proceed a short smooth tour along the shore admiring the lovely cliffs and bays and all that involves. After this I will take you to a desert beach of crystalline blue waters, with difficult access by land and where you can enjoy, fantasizing it as being yours for a few hours.

This is an activity with a very relaxing character, available to any type of person with minimal mobility. The dress code is always light clothing and a bathing suit, but don't forget to bring a jacket.

During the tour we explain several points of interest and resorting to a dinghy and with a lifeguard on board, we guarantee the safe arrival and departure between the main boat and the beach.

We also offer a small snack composed by nice local products like buttery cheese, bread and a special red pepper paste and some biscuits. Together with fresh water we give you also a bottle of 0,750 ml of local white wine or other drink if you prefer, all as a normal part of the activity. It is possible to change composition by the same value, if that is the case, please report it that desire, 48 hours before activity occurs.

After 3/4 hours I will pick you up by the desert beach and bring back to the harbour that we came from.
